RBVRR Women's College
Narayanaguda
Hyderabad 500 027

Dear Madam/Sir,

Sub: Grant of Resource Centre Status to your college.

Please refer to your letter of 4th September 2017 on the above subject. The CSIR-National Geophysical Research Institute (NGRI) is a constituent research laboratory of the Council of Scientific and Industrial Research (CSIR), established in 1961 with the mission to carry out research in multidisciplinary areas of the highly complex structure and processes of the Earth system and its extensively interlinked subsystems. NGRI has the mandate to conduct research for public-good science to enable government agencies, public and private sector stakeholders to make informed decisions about use of geo-resources sustainably and improve preparedness and resilience to natural hazards.

For furthering research in Geosciences, we have been collaborating with universities and institutions across the country by providing necessary R&D support for students and faculty. CSIR-NGRI would like to extend all necessary facilities and support to the students and faculty of RBVRR Women's College, Hyderabad.

Wishing the RBVRR Women's college all success in all their endeavours.

With best regards,

Yours sincerely,

Virendra M. Tiwari
