

MOU

The Memorandum of understanding is entered on 1st July 2017 by and between

1. M/S. Innovative Technologies, Hyderabad, represented by the director Mr. Hamed Raza here in after called as the first party

And

2. (Department of Electronics) R B.V.R.R. Women's college, Narayanaguda, Hyderabad being represented by HOD/Principal/Correspondent/Secretary here in called as second party

Whereas the Second Party is a Department in a reputed Autonomous Educational Institution which has set goals for its students and is introducing project works in Electronics for Advanced Learners of B.Sc (MECs) students from 2017-18.

Whereas the First Party is a renowned Electronics Company and has been giving experimental training in Physics/Electronics Projects for students of Degree and Engineering Colleges.

Both the parties interacted with each other and have decided to synergize their strengths for the above mentioned.

NOW THIS MOU WITNESSES AS FOLLOWS:

- Whereas the second party has been requesting the first party to send experimental hands to help the final year students in their project works
- Whereas the first party has agreed in principle to send experimental hands to train the students in completing their projects and provide required tools during the duration of their project. The training will be given free of cost but project material will be charged
- Whereas second party has agreed to provide all required components and equipment required for the project work in their laboratories
- The first party will be imparting knowledge in training the students in their respective projects and also help the students to participate in competitions
- The project work and the report will be assessed and graded by the department of the college and the first party
- The project works will be conducted during the regular working timings of the college as mutually agreed
- An Industrial visit will be held so as to impart practical knowledge for the students at free of cost
