

MOU

Date: 18/04/2011

The memorandum of understanding is entered by and between.

1. M/S.Physitech Electronics, Secunderabad, represented by the director Mr.G.Narender Reddy here in after called as the first party.
- And
2. (Department of Physics), R.B.V.R.R. Women's college, Narayanguda, Hyderabad. being represented by HOD/Principal/Correspondent/Secretary here in called as second party.

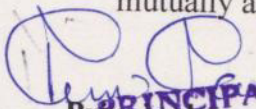

Whereas the second party is a department in a reputed Autonomous Educational Institution which has set goals for its students and is introducing project work in physics practicals for its final year students from 2011-2012 onwards.

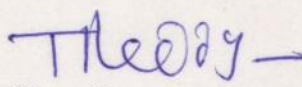

Where as the first party is a renowned electronics company and has been giving experiential training in physics/electronics projects for students of degree and engineering colleges.

Both the parties interacted with each other and have decided to synergize their strengths for the above mentioned project work.

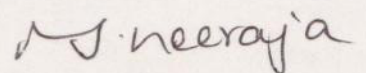

NOW THIS MOU WITNESSES AS FOLLOWS:

1. Where as the second party has been requesting the first party to send experiential hands to help the final year students in their practical project work in the college premises.
2. Where as the first party has agreed in principle to send experiential hands to train the students in completing their project and provide required tools during the duration of their project. The training will be given free of cost but project material will be charged.
3. Where as the second party has agreed to provide all required components and equipment required for the project work in their laboratories.
4. The first party will be imparting knowledge in training the students in their respective projects and also help the students to submit a report on their project.
5. The project work and the report will be assessed and graded by the department of the college and the first party.
6. The practicals will be conducted during the regular working timings of the college as mutually agreed.
