Hello,

I just wanted to share my experience on my recent trip to Malaysia, which has been one of the magical experiences I have ever had. It was a memorable trip, we learnt a lot about their culture and lifestyle. The Tarc (Tunku Abdul Rehman university) of Malaysia is just wonderful!

The students and staff were very welcoming. We enjoyed a lot, played a lot of games interacted with some of their students. I would love to study there. I just want to thank all

of the people who have made this possible. Thank you for this amazing trip
